GETTING BETTER**

**North Star continues
to lead the industry**
with new products,
features & technologies.

New North Star Features For 2011

NEW

Simulated Divided Lites – Our SDL grilles look like traditional divided lites, but offer the outstanding performance of our energy-efficient windows.

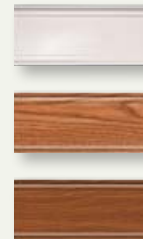

Available for our casement, awning and picture windows, and our patio doors, our SDL grilles are applied to the interior and exterior surfaces of the insulated glass for a more traditional profile – inside and out. They can be paired with our 2" mullions to re-create a classic architectural look.

Our SDL grilles and mullions are available in seven exterior and three interior finishes to match our windows.

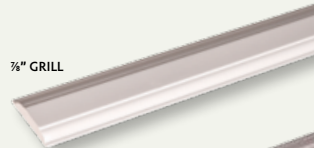

EXTERIOR

INTERIOR

¾" GRILL

2" MULLION

NEW

Nesting Fold-Down Handles – Optional on all casement and awning windows, our sleek-looking fold-down handles lie flatter, so your window treatments close better.

WHITE

COPPERTONE

FAUX BRONZE

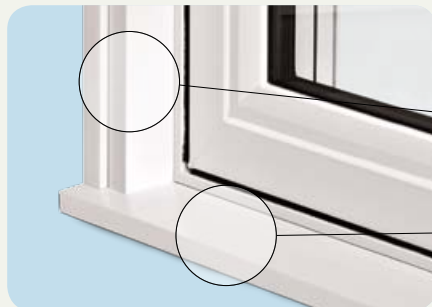

OIL RUBBED BRONZE

BRUSHED ANTIQUE CHROME

SATIN NICKEL

NEW

Brickmold With Cap – Give your home a refined architectural look with our new 2" brickmold.

NEW

Exterior Extension – Our new 2" x ½" extrusion can be used as a sill extension (shown), or can surround the window as brickmolding.
