

TAKE A LOOK AT A GREENER VIEW

QUALITY WINDOWS & DOORS
GREAT SERVICE. EXCEPTIONAL VALUE.

northstarwindows.com

Enjoy the view through energy-efficient North Star windows and doors.

We care about the environment.

At North Star, we care about the environment inside your home and outside it, too.

We make all our windows and doors with energy-efficiency in mind, so you can enjoy year-round comfort – and savings.

Saving Energy Can Do A World Of Good

North Star's view is getting greener every day. Our **EnviroMade™** manufacturing process is environmentally friendly, so you can take comfort in knowing that when you invest in our windows and doors you are investing in a greener future.

At North Star, we've made great efforts to save energy and eliminate waste throughout our production process to ensure a greener future for everyone.

Recycling excess materials

- **PVC** – All excess PVC scrap is recycled to make products such as vinyl fence and decking.
- **Cardboard** – Excess cardboard is recycled into products such as cellulose insulation.
- **Glass** – Scrap glass is recycled to use in road resurfacing.
- **Scrap metal** – Excess scrap metal is reused by scrap-metal recyclers.

Reducing energy consumption

- **Water** – Water from our glass-washing equipment is filtered for re-use.
- **Engine oil** – Used engine oil from our truck fleet is collected and re-refined to make various oil products.
- **Heat** – Heat that is generated from our equipment is re-directed into our plant to reduce overall energy costs.
- **Lighting** – Our entire plant's lighting system uses energy-efficient lights to reduce overall energy consumption.

Enjoy a greener view through energy-efficient North Star windows and doors.
