Enjoy the view through **energy-efficient** North Star windows and doors.

### We care about the environment.

At North Star, we care about the environment inside your home and outside it, too.

We make all our windows and doors with energy-efficiency in mind, so you can enjoy year-round comfort – and savings.

## Saving Energy Can Do A World Of Good

North Star's view is getting greener every day. Our **EnviroMade™** manufacturing process is environmentally friendly, so you can take comfort in knowing that when you invest in our windows and doors you are investing in a greener future.

At North Star, we've made great efforts to save energy and eliminate waste throughout our production process to ensure a greener future for everyone.

### Recycling excess materials

- **PVC** – All excess PVC scrap is recycled to make products such as vinyl fence and decking.
- **Cardboard** – Excess cardboard is recycled into products such as cellulose insulation.
- **Glass** – Scrap glass is recycled to use in road resurfacing.
- **Scrap metal** – Excess scrap metal is reused by scrap-metal recyclers.

### Reducing energy consumption

- **Water** – Water from our glass-washing equipment is filtered for re-use.
- **Engine oil** – Used engine oil from our truck fleet is collected and re-refined to make various oil products.
- **Heat** – Heat that is generated from our equipment is re-directed into our plant to reduce overall energy costs.
- **Lighting** – Our entire plant's lighting system uses energy-efficient lights to reduce overall energy consumption.

**Enjoy a greener view through energy-efficient North Star windows and doors.**

**ASK YOUR NORTH STAR DEALER HOW OUR ENERGY-EFFICIENT WINDOWS AND DOORS CAN SAVE YOU MONEY.**
