

EXTERIOR COLOURS DESIGNED TO LAST

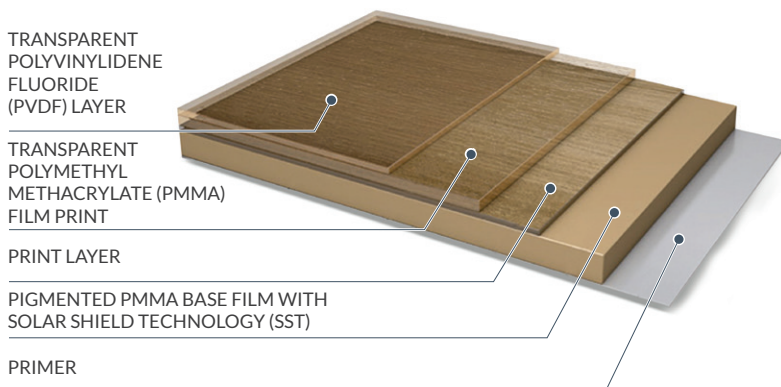

FUSION

COLOUR WRAP™

A sophisticated application process that prevents our colours from chipping or peeling like paint can over time.

Features and Benefits

- Multi-layered film is applied to vinyl using polyurethane reactive hot melt to create permanent bond between wrap and vinyl
- Extremely resistant to scratches and abrasions
- Unaffected by environmental pollutants
- Performs well in sea-side applications
- Dirt and grime are easily cleaned away using normal mild household cleaners

EXTERIOR COLOURS

INTERIOR FINISHES

Available on interior with matching exterior.

Add colour to any of our Series 1000 windows and entry sliding patio doors
